CHETWYND RCMP ARE SEARCHING FOR WANTED MAN CONSIDERED TO BE A DANGEROUS

The Chetwynd RCMP is seeking the public's help in locating a wanted individual, who police say should be considered dangerous.

At about 5:30 pm on Wednesday August 18th, RCMP were advised that Devon Myles Lindstrom was seen at a local business in Chetwynd.

When frontline officers managed to catch up with Lindstrom while he was driving in an industrial area of Chetwynd he began driving dangerously and recklessly in traffic. Police elected to stop pursuing Lindstrom.

"Our priority is to ensure the safety of the community and that is why our officers chose not to engage in a high traffic time of day, so as to not to put anyone else at risk," states Sgt. Wahnese Antonioni. "The Chetwynd RCMP continue their efforts to locate and safely arrest Devon Lindstrom. We want the general public to be alert and if you do spot this individual, do not approach him, instead we ask the public to call 9-1-1 or their local police immediately."

Lindstrom has several outstanding warrants for his arrest. Lindstrom is described as 25-year old Indigenous male with tattoos on his face, neck, and ears. He is 6 feet tall and about 190 lbs.

As he is considered dangerous, Chetwynd RCMP are asking that if you see Lindstrom, do not approach him and to call police.

Released by Sgt. Wahnese Antonioni
 Detachment Commander Chetwynd RCMP-GRC

My nephew, a flight attendant, split the back of his pants one day during a flight. To save embarrassment, he decided to work in front of the beverage cart, facing forward. The arrangement worked perfectly until he got to the last row and a passenger leaned over to him and said in a low voice, "Your fly is open."

Paradoxical as it sounds, many intellectuals prefer life in the mud to life in clear water.

WOLVERINE MINE - EXPANSION TO HERMANN DISTURBANCE AREA MINES ACT AND ENVIRONMENTAL MANAGEMENT ACT PERMIT AMENDMENT APPLICATION

Public Notification and Invitation to Comment

Conuma Resources Ltd (Box 2140, Tumbler Ridge, BC V0C 2W0) is seeking to amend provincial authorizations pursuant to the *Mines Act* and *Environmental Management Act* for expansion of the existing Wolverine Mine to include the Hermann Disturbance Area (HDA). The HDA encompasses a proposed open pit mine located approximately 16 km from the Wolverine Mine's Perry Creek Pit and Coal Processing Plant, with a Life of Mine of 7 years. The expansion, referred to as the Wolverine-Hermann Amendment Project (the Project), will function as a satellite pit and infrastructure to the Wolverine Mine.

The Major Mines Office (MMO) of the Ministry of Energy, Mines and Low Carbon Innovation is leading a coordinated authorizations review for the Project on behalf of the Ministries of Energy, Mines and Low Carbon Innovation and Environment and Climate Change Strategy, and is currently inviting public comments about the Project related to the following authorizations:

Authorization: *Mines Act* Permit C-223 Amendment

Authorization: *Environmental Management Act* Permits PA-17759 and PE-17756 Amendments.

The Project has the potential to produce up to 9 million tonnes of metallurgical coal for sale in the export market at a production rate of up to approximately 1.6 million tonnes per annum (Mtpa). The HDA has a footprint of approximately 680 ha. Project components within the HDA include the Hermann Pit, waste rock dumps, soil stockpiles, run of mine stockpiles and truck load out, diesel generated power, water supply, water management system (clean water diversions, contact water collection ditches and water treatment infrastructure), office, dry and shop facilities, fuel storage, explosives facilities. Run of mine coal will be transported along the existing 26 km haul road between the Hermann Pit and the exiting Perry Creek Coal Processing Plant where it will be processed. Tailings will be stored within the existing Wolverine Tailings Storage Facility (TSF) and, once the TSF is full, in the mined-out Perry Creek Pit. Coarse coal rejects will be stored in the mined-out Perry Creek Pit. The amendment application contains a detailed reclamation and closure program, including plans for progressive reclamation.

The land upon which the discharges will occur on is Conuma Resources Ltd. Coal Licenses 417485, 383180, 383181, 383182, 383183, 417327. The land is located in PNG Grid 093P03, Block B, Units 31, 32, 33, 21, within NTS map sheet 93P/03, and centered at 55.006012 N 121.153151 W.

An amendment to effluent discharge permit PE-17756, issued July 25, 2006, amended December 12, 2016, which authorizes the discharge of effluent from the Wolverine Mine, will be required to discharge effluent from the HDA. The amendment proposes to treat contact water prior to discharge into M20 Creek via sedimentation ponds, ultra-filtration, reverse osmosis, SeHAWK bioreactors, polishing pond, aeration pond, and a Pilot BCR Pond. The discharge location is proposed to be located at 55.01763 N, 121.14055 W.

The maximum rate of effluent discharged from the HDA will be 25,100 m³/d. The effluent from the HDA will be discharged to M20 Creek. Effluent discharge is proposed to occur 24 hours/day, 275 days/year, with some variation depending on precipitation and runoff events. Discharge will not occur from January to March. Proposed contaminant concentrations are as follows: pH 6-9.5; Total Suspended Solids (TSS) <35mg/L monthly average, <50mg/L grab sample; selenium 0.01 mg/L; Biochemical Oxygen Demand (BOD) <10mg/L; Dissolved Oxygen (DO) >5mg/L. Measures to mitigate environmental impacts are provided in management plans, including a Selenium Management Plan, Metal Leaching/Acid Rock Drainage Management Plan, Water Management Plan, and Erosion and Sediment Control Management Plan. Monitoring of the receiving environment is proposed to include continuous flow, temperature, turbidity, conductivity, and dissolved oxygen monitoring, monthly monitoring for some anions, nutrients and metals, and quarterly monitoring for rainbow trout toxicity.

An amendment to air discharge permit PA-17759, issued August 15, 2005 and last amended December 12, 2016, which authorizes the discharge of air emissions from the Wolverine Mine, will be required. The amendment application requests authorization to discharge air contaminants, in particular fugitive dust emissions, from the HDA. Continuous monitoring for the following thresholds is proposed: PM2.5 – 25ug/m³ for 24 hour average, 8ug/m³ for annual average; PM10 – 50 ug/m³ for 24 hour average. Measures to mitigate environmental impact are provided in the Fugitive Dust Management Plan.

A copy of the permit applications, including supporting documentation, are available for public viewing at:

Tumbler Ridge Public Library, 340 Front Street, Tumbler Ridge, BC | Chetwynd Public Library, 5012 46th St NE, Chetwynd, BC

Any person affected by or interested in this program has 30 days to send written comments to: Sarah Alloisio, Project Lead, Major Mines Office, Suite 200, 10470 - 152st., Surrey, British Columbia, V3R 0Y3, or via email at Sarah.Alloisio@gov.bc.ca. The identity of any respondents and the contents of anything submitted in relation to this application will become part of the public record.

Johnson Industrial
is looking for an

Automotive Technician

- Willing to apprentice the right candidate
- Must have a valid drivers license
- Must be motivated and able to work in a fast-paced environment

Competitive wages and health benefits provided

Email resume to service@johnsonindustrial.ca
or apply at 4536 45th Ave, Chetwynd BC

ATTENTION!

Anyone interested in becoming a player in either Dungeons & Dragons or Battletech once a week for as long as you wish, please contact me ASAP. I have been a Dungeon Master since July 1980 and a referee in Battletech since 1986. You must live in Chetwynd and have transportation. Call Gord at 250-788-2896

"Kerry, you're seven, so it's time you knew our family secret." Kerry idolized my older sister, Kate, and me, so whatever we said was gospel. "Mom isn't really our mom," I continued. "Our real mother was eaten by a lion while she and Dad were on safari. An agency sent this replacement lady. The good news is you don't have to listen to her." She stared with huge, credulous eyes. "Does Dad know?" "Yes," Kate said. "Just ask him." Our sister spent the day ignoring Fake Mom's requests, and when Dad got home from work, she implored him to tell her if it was true. Dad, full of Irish blarney, sighed, "Why, yes, it is. She was a lovely woman. You look like her." Finally, Fake Mom clued in and produced a photo of herself holding Kerry as a newborn. She added, "This real mom will deal with your sisters, and your father, later."

NOW HIRING MECHANICS HELPER/APPRENTICE

— FULL TIME PERMANENT POSITION —
