## PREMIER'S STATEMENT ON ONE YEAR SINCE CANADA'S FIRST COVID-19 CASE

Article published Monday, January 25

Premier John Horgan has issued the following statement marking one year since the first presumptive COVID-19 case in Canada was announced:

"One year ago today, the first presumptive case of COVID-19 in Canada was announced. The first lab-confirmed case in British Columbia was announced later that week. Within six weeks, COVID-19 was declared a global pandemic.

"Over the past year, British Columbians — like people around the world — have faced challenges, hardships and loss. COVID-19 has turned our lives upside down.

"While the end of the pandemic is in sight, thanks to the availability of vaccines, the threat is not over. We must remain vigilant.

"Today is an appropriate time to commemorate the more than 1,000 British Columbians we have lost so far to COVID-19. It is also the time to acknowledge the countless efforts and sacrifices people have made to help protect and take care of others over the last year.

"Today, we recommit ourselves to protecting people's health and livelihoods from the threat of COVID-19, knowing that better days are ahead."

One afternoon while I was visiting my library, I noticed a group of preschoolers gathered for story time. The book they were reading was "There Was an Old Lady Who Swallowed a Fly." After the librarian finished the first page, she asked the children, "Do you think she'll die?" "Nope," a little girl in the back said. "I saw this last night on 'Fear Factor.' "

## Winter Parking on District Roads Information Everyone Should Know

The Streets and Traffic Regulation Bylaw # 909, 2009 section 5.13: Obstruction of Motor Vehicles  
No vehicle shall be left standing or parked:

- (i) in violation of this bylaw;
- (ii) in a position that causes it to interfere with firefighting;
- (iii) in a position that causes to interfere with the normal flow of traffic on a highway; or

(iv) in a position that causes it to interfere with the construction, improvement, maintenance, alterations, extension, widening, marking, or repair of or snow removal from a highway.

Winter is almost upon us and with it comes heavy snow falls. The District of Chetwynd is committed to keeping all our roads safe for all citizens and therefore any vehicles parked in a manner that interferes with effective snow removal will be removed without notice.

A full list of the District of Chetwynd Bylaws can be found on our website at [www.gochetwynd.com](http://www.gochetwynd.com) under the heading Municipal Office/Bylaws and follow the link. For further information regarding this or other Bylaw related questions please call Bylaw Enforcement at 250-401-4119

I was picking up my letters at the post office when I heard a boy ask his mother if they had gotten any mail. She said, "No, just bills." Then he asked, "Why do we always get his mail?"

## Water Treatments

Winter is a risky time for falls on the ice. If you have a badly sprained ankle, or even a broken bone, consider using the treatment described last week to aid in healing: 3 minutes hot (add hotter water), 1 minute cold (add snow or ice). If you need deeper containers in order for water to reach the affected area, sit on the edge of the bathtub with two buckets in the tub to treat lower leg area. Use a deep sink to treat arms and hands. We grow a wonderful weed up here named comfrey, also called "knot-bone." A comfrey compress applied after a hydrotherapy treatment is a great aid to help the body heal breaks and sprains.

**To make a comfrey poultice:** place a leaf or two in the blender with just enough hot water to make a paste, spread the paste on a clean rag and apply it directly to the skin over injury, then bind with plastic wrap to prevent staining nightclothes (in the case of a broken bone, this treatment would be done after a cast is removed).

One of the simplest forms of hydrotherapy that a person can do on themselves is a contrast shower; first the regular cleansing phase, then the treatment phase: three minutes of increasing hot, then as cold as possible for 30 seconds. End the shower with the third exchange of cold, then dry quickly, bundle up in warm pyjamas, robe and wool socks and go directly to bed. Sleep as long as possible. The hope is that this treatment may encourage your system to spike a fever, helping fight off viral and bacterial infections. Stay covered; let the fever run its course to annihilate germs. Do not fear to invite the healing touch of the Great Physician. He is always standing by to do for us what we cannot do for ourselves. Even world-renowned surgeons acknowledge that they can only cut, repair and stitch. The body was designed to heal itself, given the right conditions.

A client recently brought her two cats to my husband's veterinary clinic for their annual checkup. One was a small-framed, round tiger-striped tabby, while the other was a long, sleek black cat. She watched closely as I put each on the scale. "They weigh about the same," I told her. "That proves it!" she exclaimed. "Black does make you look slimmer. And stripes make you look fat."

The military may have invented the Internet, but not all government schemes have worked as well. In the '60s, the CIA hatched a plan to implant a battery and a microphone in a cat so the furry feline could spy on unsuspecting targets. The program was halted when, after years of research and millions of dollars spent, the spy cat was run over by a cab.

My father's secretary was visibly distraught one morning when she arrived at the office and explained that her children's parrot had escaped from his cage and flown out an open window. Of all the dangers the tame bird would face outdoors alone, she seemed most concerned about what would happen if the bird started talking. Confused, my father asked what the parrot could say. "Well," she explained, "he mostly says, 'Here, kitty, kitty.'"

A woman walked into my aunt's animal shelter wanting to have her cat and six kittens spayed and neutered. "Is the mother friendly?" my aunt asked. "Very," said the woman, casting an eye on all the pet carriers. "That's how we got into this mess in the first place."

# NORTH WIND SUPPLIES IS NOW HIRING!

North Wind Supplies is a new business in Chetwynd with a goal of being the region's leading provider of quality consumables and maintenance, repair, and operational supplies to contractors, oil and gas developers, mines and other companies delivering infrastructure projects throughout the Peace River region. North Wind Supplies is committed to offering high-quality industrial products with first class services at fair market prices.

**As a new retail store, we want to hire the best and most promising individuals to join our team. Currently we are seeking qualified applicants for the following roles:**

## Front Counter Staff

You will foster relationships with our customers, suppliers, and visitors. Ideally, you have excellent listening skills as demonstrated by your ability to understand what our customers want. You have a curious mind and want to understand as much as you can about our products and our customers. You are patient, positive and calm – welcoming customers not only as they come into the store, but as they ask questions and try to understand product offerings.

## Receptionist

You will be the first point of contact for our customers, suppliers, and visitors. You are our ambassador. You thrive in a dynamic, people-oriented environment and enjoy saying a warm and friendly hello to everyone you meet. You take pride in your work, enjoy creating a tidy and presentable office, shine when supporting others and provide a calming presence.

## Shipper-Receiver

The Shipper-Receiver will perform and/or supervise general physical activities to load, unload, sort and move shipments by hand or using material handling equipment. The Shipper-Receiver is also responsible for verification, acceptance, counting, and inputting into the inventory system all incoming goods and their condition.

## Small Engine Mechanic

The small engine mechanic will perform a range of skilled repair and maintenance work on small engine equipment. Responsibilities include inspection, diagnosis, and repair of mechanical and electrical issues on equipment such as chainsaws, lawn & garden equipment, plate tampers, etc. You will be expected to coordinate the timing of repairs with parts suppliers and customers. In addition, our customers need hydraulic hose repairs. Experience in this area is welcome and wanted. You will be responsible for ensuring quality service and high levels of customer satisfaction.

## General Labourer

The General Labourer will assist in the Industrial warehouse, small engine shop, and in the storage yard of North Wind Supplies. The general labourer should be able to work alone with minimal supervision or as part of a team.
