HOSE LAY COMPETITION

That's it for this year's Hose lay competition, which was held right here in Chetwynd.

All participants worked hard and had fun.

The Grand Aggregate Winners were.....

Team Chetwynd Chucker. Posing with the New Grand Aggregate Trophy carved by Chris Larsen from Chetwynd. (Left) The team consisted of Devon La Place, Dustin Brewster and Chris Fung. Congratulations!

Double CHEESE Double BACON BURGERS

And double napkins, probably.

How do you top a burger that's made with 100% pure beef raised without the use of hormones or steroids? Generously, that's how. Like with a double helping of cheese and naturally smoked bacon. Because when you've made Canada's best tasting burger, there's nowhere to go but up.

MAYOR'S REPORT

Once more Chetwynd has done it. The 2017 International Chainsaw Sculpturing Championship is successfully over and the champs have returned to their homes in Australia, Japan, Britain, the USA, and Canada. In this event our own home-grown Randy Gauthier demonstrated his artistic talent, hand-eye coordination, and physical endurance with the world's best.

Way to go, Randy. We'll be watching you as you release the hidden art in competitions across the continent.

If you haven't seen the art generated at the 2017 Championship, you owe it to yourself to shake loose the ties that bind at the first opportunity and, with your family and friends (or solo), make the rounds of 2017 productions. You'll be astonished at the objects that have been concealed in forest trees for multiple scores of years – just waiting for the bite of the saw that sets them free.

During the first twelve years of the Chetwynd Championship, organized by the Chetwynd Chamber of Commerce, it grew from an idea to an outstanding event, and matured to become the premier chainsaw art championship in North America (in the opinion of many carvers). Indeed, it has been a growing success. For the first time this year the event was organized by a society whose sole purpose is to organize the event. Kind of makes sense, doesn't it? And 2017 has been every bit as successful as its predecessors.

You might wonder what goes into a successful event such as the International Chainsaw Sculpturing Championship. Then, again, you might never have stopped to ponder the question. Let me help you with your pondering.

In the first place we have a committed team of volunteers. I really don't know where they start but among the many details that cannot be forgotten we would find the following: invitations to world-class chainsaw artists (probably high on the list if not first), recruitment of qualified judges, sponsors, placement of vendors, security, safety, fuel and oil, saw chain, files, saw parts, volunteer recruitment, cleanup, hotels, food and refreshments, the reception, publicity. I know there are details I cannot even imagine but I've seen enough to recognize the enormity of the undertaking.

As an outsider looking in I have only admiration for the volunteer team that pulled off the event with such outstanding results.

Sponsoring components of the Championship is one of the elements of a successful event. I appreciate, the District of Chetwynd appreciates, we all appreciate the sponsors and their willingness to contribute to the success of an event that is putting Chetwynd on the world map. It is good to see sponsors from Dawson Creek and Tumbler Ridge helping to make this event truly regional in interest. May your tribe increase!

Yes, even the taxpayers of Chetwynd shelled out \$40,000 (a long-standing habit). Some of you knew this. Now everyone who reads this piece of modern literature also knows.

Spectators are not always valued for their real contribution to a successful outcome – especially if there is no gate charge. Don't be misled, spectators, by a little perceived lack of appreciation. We all experience that lack from time to time. You are vitally important, especially on a rainy weekend like we just enjoyed. I firmly believe that without the admiring audience the artists would somehow feel a substantial lack of the vital energy they need to bring the object into the open within the allotted time.

Plan for 2018.

Merlin Nichols, Mayor

A career with unlimited potential

Enbridge is more than an energy company. Beyond transporting, delivering and generating energy, we have a higher purpose: to fuel people's quality of life. If you share our vision, join our team and explore the opportunity to build a career with unlimited potential.

Technical Planner

Contribute to routine and non-routine maintenance in Chetwynd

A self-starter with strong analytical skills, you will use an integrated management system (SAP PM, MM, CO) in carrying out a variety of activities related to maintenance planning, scheduling and material procurement. This position involves travel to facilitate on-site work scoping and estimating, and ensure that all work is performed safely and cost effectively.

You have 5 years' experience in an industrial environment or 2 years working as a Planner/Scheduler, supported by a Technical diploma, Trades certification, an Engineering degree or an equivalent background. This role also calls for training and competency in job scoping and estimating, maintenance planning and scheduling, as well as SAP PM Notification and Work Order Planning and Scheduling. Good MS Office skills and a valid driver's licence are required. Gas industry knowledge would be a definite plus.

To apply online, please go to canadajobs.spectraenergy.com, by **July 9, 2017**. For more information about Enbridge, visit: enbridge.com.

KELSEY'S CHRONICLE

In celebration of Canada's 150 years as a country, I would like to shine a light on some of the many reasons Canada is awesome.

We are well educated- According to the Organization for Economic Cooperation and Development's report on global education, Canada has the highest proportion of college grads, making us one of the most educated countries on earth.

Maple syrup reserve- There is a reserve in Quebec that has stored away more than 220,000 barrels of maple syrup... you know, just incase!

Million dollar coin- In 2007, a million dollar coin was created, weighing 100kg and is .99999% pure. although the face value is 1 million, the street value on this is more around 5 million.

Hawaiian pizza- Although you would assume it came from Hawaii, in fact it was created in 1962 in an Ontario pizzeria.

Cheese masters- Lancaster Ontario holds the title of Supreme Global Champions of the Global Cheese Awards.

We invented basketball- a physical education teacher at McGill University created the game in 1891 while working at a U.S college.

A stellar reputation- According to an annual survey of the 68 countries, Canada ranked 1st for best reputation... But being as modest as we are, when asked where we ranked, Canadians considered themselves below that of France, the U.K., Australia and the U.S who actually ranked 22.

Hockey is our game- Many of our Canadian hockey players reside in the U.S and have played for American teams for the majority of their careers. But every four years when the winter Olympics come around, Canada comes out to prove time and time again that we are a force to be reckoned with in the hockey department.

Way ahead of the times in legalizing same sex marriage- In 2005, The Canadian government legalized same sex marriage, becoming the fourth country to do so.

Poutine- Everyones favourite artery clogging delight, was created in Quebec.

And lastly, Patriotism- according to a 2008 survey, Canada was ranked the sixth most patriotic country in the world.
