## TANSI FRIENDSHIP CENTRE GRAND OPENING AND RIBBON CUTTING CEREMONY

Tansi Friendship Centre had their grand opening and ribbon cutting ceremony at their new building (4729 51st St), and it drew quite the crowd on Wednesday, August 18th.

They held an all-day event where soup and bannock were served, door prizes were drawn,

their new logo was unveiled, and tours were given of the building. The new centre is much larger than their previous building with enough space for several offices and room to host their Friday soup and bannock, as well as a large youth centre in the basement.

A round dance song was performed by Melvin Davis, a prayer was said by Blanche Gladue, and speeches were given by Vice President of the Board of Directors Hank Calliou, Director Laurelle Watson and councillor Mel Deck, who also presented a certificate of recognition for their support and good work in the community.

"Firstly I'd like to thank everyone for coming out to celebrate our grand opening. This new building has been on the Centre's strategic plan for many, many years, but there always seemed to be too many obstacles that prevented the board and staff from accomplishing it. But this amazing board of directors, even being scared, jumped on board and were able to make this dream into a reality," said Laurelle Watson. The renovations to the building were a community project, supporting over 8 families with work during the 4-month project. Laurelle also says they had volunteers, paid contractors, donations, tons of changes, and lots of surprises along the way.

The new friendship centre is located at the old Lake View Credit Union building; drop by sometime and say hello to the wonderful team that's providing such a great service to Chetwynd!

## LOST & FOUND

Lost: 2 cats from car accident scene 80km from Chetwynd. Medics saw cats run off into bushes Thurs, July 29. Nybbles is 25lbs with black fur & small tuft of white at throat. Trixi weighs 6lbs, also all black with white tuft on belly. Both are in harnesses with name tags & microchips. Please help! Reward available if found. Call Carri at 403-472-8575

The homework assignment for my Spanish class was to write a paragraph. When I returned their papers, I asked one student if he had used

Google

Translate or any other online translator to write his paper. He categorically denied doing so.

That led to my next question:

"Then why is this in French?"

Just before the final exam in my college finance class, a less-than-stellar student approached me. "Can you tell me what grade I would need to get on the exam to pass the course?" he asked. I gave him the bad news. "The exam is worth 100 points. You would need 113 points to earn a D." "OK," he said. "And how many points would I need to get a C?"

# WOLVERINE MINE - EXPANSION TO HERMANN DISTURBANCE AREA MINES ACT AND ENVIRONMENTAL MANAGEMENT ACT PERMIT AMENDMENT APPLICATION

## Public Notification and Invitation to Comment

**Conuma Resources Ltd** (Box 2140, Tumbler Ridge, BC V0C 2W0) is seeking to amend provincial authorizations pursuant to the *Mines Act* and *Environmental Management Act* for expansion of the existing Wolverine Mine to include the Hermann Disturbance Area (HDA). The HDA encompasses a proposed open pit mine located approximately 16 km from the Wolverine Mine's Perry Creek Pit and Coal Processing Plant, with a Life of Mine of 7 years. The expansion, referred to as the Wolverine-Hermann Amendment Project (the Project), will function as a satellite pit and infrastructure to the Wolverine Mine.

The Major Mines Office (MMO) of the Ministry of Energy, Mines and Low Carbon Innovation is leading a coordinated authorizations review for the Project on behalf of the Ministries of Energy, Mines and Low Carbon Innovation and Environment and Climate Change Strategy, and is currently inviting public comments about the Project related to the following authorizations:

Authorization: *Mines Act* Permit C-223 Amendment

Authorization: *Environmental Management Act* Permits PA-17759 and PE-17756 Amendments.

The Project has the potential to produce up to 9 million tonnes of metallurgical coal for sale in the export market at a production rate of up to approximately 1.6 million tonnes per annum (Mtpa). The HDA has a footprint of approximately 680 ha. Project components within the HDA include the Hermann Pit, waste rock dumps, soil stockpiles, run of mine stockpiles and truck load out, diesel generated power, water supply, water management system (clean water diversions, contact water collection ditches and water treatment infrastructure), office, dry and shop facilities, fuel storage, explosives facilities. Run of mine coal will be transported along the existing 26 km haul road between the Hermann Pit and the exiting Perry Creek Coal Processing Plant where it will be processed. Tailings will be stored within the existing Wolverine Tailings Storage Facility (TSF) and, once the TSF is full, in the mined-out Perry Creek Pit. Coarse coal rejects will be stored in the mined-out Perry Creek Pit. The amendment application contains a detailed reclamation and closure program, including plans for progressive reclamation.

The land upon which the discharges will occur on is Conuma Resources Ltd. Coal Licenses 417485, 383180, 383181, 383182, 383183, 417327. The land is located in PNG Grid 093P03, Block B, Units 31, 32, 33, 21, within NTS map sheet 93P/03, and centered at 55.006012 N 121.153151 W.

An amendment to effluent discharge permit PE-17756, issued July 25, 2006, amended December 12, 2016, which authorizes the discharge of effluent from the Wolverine Mine, will be required to discharge effluent from the HDA. The amendment proposes to treat contact water prior to discharge into M20 Creek via sedimentation ponds, ultra-filtration, reverse osmosis, SeHAWK bioreactors, polishing pond, aeration pond, and a Pilot BCR Pond. The discharge location is proposed to be located at 55.01763 N, 121.14055 W.

The maximum rate of effluent discharged from the HDA will be 25,100 m<sup>3</sup>/d. The effluent from the HDA will be discharged to M20 Creek. Effluent discharge is proposed to occur 24 hours/day, 275 days/year, with some variation depending on precipitation and runoff events. Discharge will not occur from January to March. Proposed contaminant concentrations are as follows: pH 6-9.5; Total Suspended Solids (TSS) <35mg/L monthly average, <50mg/L grab sample; selenium 0.01 mg/L; Biochemical Oxygen Demand (BOD) <10mg/L; Dissolved Oxygen (DO) >5mg/L. Measures to mitigate environmental impacts are provided in management plans, including a Selenium Management Plan, Metal Leaching/Acid Rock Drainage Management Plan, Water Management Plan, and Erosion and Sediment Control Management Plan. Monitoring of the receiving environment is proposed to include continuous flow, temperature, turbidity, conductivity, and dissolved oxygen monitoring, monthly monitoring for some anions, nutrients and metals, and quarterly monitoring for rainbow trout toxicity.

An amendment to air discharge permit PA-17759, issued August 15, 2005 and last amended December 12, 2016, which authorizes the discharge of air emissions from the Wolverine Mine, will be required. The amendment application requests authorization to discharge air contaminants, in particular fugitive dust emissions, from the HDA. Continuous monitoring for the following thresholds is proposed: PM2.5 – 25ug/m<sup>3</sup> for 24 hour average, 8ug/m<sup>3</sup> for annual average; PM10 – 50 ug/m<sup>3</sup> for 24 hour average. Measures to mitigate environmental impact are provided in the Fugitive Dust Management Plan.

A copy of the permit applications, including supporting documentation, are available for public viewing at:

## HELP WANTED

**YOUNG'S MILLS**  
(1980) LTD

**Cook for Logging Camp**  
in Chetwynd, BC

– Rotation Work –

Health/Dental/Pension provided  
Accommodations available if required

Fax: 250-788-2848

Email: [resume@youngsmills.com](mailto:resume@youngsmills.com)

Upon finding a clearly plagiarized paper, I called the student into my office. Pointing to my computer screen, I said, "I found your entire paper online. Do you have anything you want to say about that?" Her angry response: "Well, I paid my sister to write it, but I didn't think she'd plagiarize!"
