RCMP Investigation Results in Discovery of Sarah Foord, an Arrest and Homicide Charges.

A major crime investigation that initially began on July 10th, as a missing person investigation became a homicide investigation with charges being laid. On Friday, July 10, 2020 Sarah FOORD (38) was reported by a family member as missing to the Fort St John RCMP. On July 13, 2020 the BC RCMP North District Major Crime Unit became engaged in the missing person investigation when investigators were unable to rule out foul play. The BC RCMP Major Crime Unit, Fort St John RCMP, Surrey RCMP, Forensic Identification/Forensic Search Units, Police Dog Section and other units from across the BC and Alberta worked collectively to try and locate Sarah FOORD. On July 24th, 2020 the continuing investigation resulted in the recovery of human remains in a remote location approximately 75 km north of Fort St John. In consultation with the BC Coroner Service, and Sarah's family the remains were confirmed to be those of Sarah FOORD. The Investigative findings were provided to the BC Prosecution Service and on July 25th, 2020 the BCPS approved one count of 2nd degree murder against 35 year old John Wendell KEYLER for the murder of Sarah FOORD. KEYLER was arrested without incident in Fort St John on and will make an appearance on Tuesday, July 28th, 2020. RCMP investigators continue to update Sarah's family on the progress of the investigation and will continue to provide them support.

"I want to acknowledge all of the police investigators, staff and analysts who worked day and night on this investigation to find Sarah and secure a charge for her death" says Insp. Lorne Wood, North District Major Crime. "Also on behalf of the investigative team I want to thank Sarah's family, members of the public and local businesses who came forward with information to assist with the investigation into the disappearance of Sarah. Our priority now is to prepare for court process".

In a rural area a farmer was tending to his horse named Buddy, and along came a stranger who desperately needed the farmer's help. The stranger had lost control of his vehicle and ran it off into a ditch. The stranger asked the farmer if his horse could somehow pull the vehicle out of the ditch for him and told the farmer that the vehicle was small. The farmer said he would come, bring his horse, and take a look, but could not promise he could help if his horse might be injured in some way from attempting to pull the vehicle out of the ditch. The farmer did see that the stranger was correct and that the vehicle was small, so the farmer took a rope and fixed it so that his horse, Buddy, would be able to pull the vehicle out of the ditch. The farmer then said, "Pull, Casey, Pull," but the horse would not budge. The farmer then said, "Pull, Bailey, Pull," but the horse would not budge again. The farmer then said, "Pull, Mandy, Pull," and again the horse would not move. The farmer then said, "Pull, Buddy, Pull," and the horse pulled until the vehicle was out of the ditch. The stranger was so very grateful, but asked the farmer why he called the horse by different names? The farmer said, "Buddy is blind, and I had to make him think he had help pulling the car out of the ditch or he would not have pulled."

Lesson: Don't wait on others in order to accomplish something or you may always be in a ditch. Sometimes we won't attempt to do something if we know we don't have help.

DOKIE Wind

Dokie General Partnership is pleased to announce the availability of four \$1000 scholarships for Chetwynd students. The scholarships are intended for post-secondary students (max. age 24 years old), with preference given to recent high school graduates. The four scholarships will be awarded based on the applicant's completion of an essay and satisfaction of other criteria. For an application package, please email Claudia Demech cdemech@innnergex.com. The deadline for all submitted applications is midnight on 1st

did you know?

Lay your arm on a flat surface and push your thumb and pinky together. If you don't see a raised band across your wrist, you are a product of evolution. If you do, you've got a useless extra muscle in your arm that is slowly being erased from our genetic code.

A wife was making a breakfast of fried eggs for her husband. Suddenly, her husband burst into the kitchen. 'Careful,' he said, 'CAREFUL! Put in some more butter! Oh my gosh! You're cooking too many at once. TOO MANY! Turn them! TURN THEM NOW! We need more butter. Oh my gosh! WHERE are we going to get MORE BUTTER? They're going to STICK! Careful. CAREFUL! I said be CAREFUL! You NEVER listen to me when you're cooking! Never! Turn them! Hurry up! Are you CRAZY? Have you LOST your mind? Don't forget to salt them. You know you always forget to salt them. Use the! Salt. USE THE SALT! THE SALT!' The wife stared at him. 'What in the world is wrong with you? You think I don't know how to fry a couple of eggs?' The husband calmly replied, 'I just wanted to show you what it feels like when I'm driving.'

Don't Feed the Wildlife

An individual who tossed a box of breakfast cereal to a bear along a northern B.C. highway was promptly charged with intentionally feeding dangerous wildlife. A passing motorist witnessed the action along Highway 16 near #Kitwanga and called police. The information was relayed to #Skeena Conservation Officers, who were in the area on patrol. CO's followed up at the individual's home, where he was handed a \$345 ticket. Under the Wildlife Act, it is an offence to feed dangerous wildlife – doing so creates a serious risk to public safety and the safety of the bear. Please call the #RAPP line if you witness this #BCCOS

Massive recall on Ethanol Based Sanitizer

Health Canada says certain hand sanitizers made with ethanol or denaturants are not acceptable ingredients for use in hand sanitizers - and has recalled a long list of products.

Health Canada is advising Canadians that certain hand sanitizers are being recalled from the market because they contain ethanol or denaturants that are not acceptable for use in hand sanitizers in Canada. Denaturants are added to ethanol to make it unfit for human consumption and, therefore, to avoid the unintentional ingestion of hand sanitizers (particularly by children).

Since these unacceptable types of ethanol and denaturants have not been approved for use in hand sanitizers in Canada, the Department has not reviewed them for safety or efficacy. Multiple types of unacceptable ethanol and denaturants have been found in hand sanitizer products," says Health Canada.

Possible adverse reactions to the ingredients in these products may include dermatitis, such as skin irritation and cracking; eye irritation; upper respiratory system irritation; and headaches. Health Canada will update this list if it becomes aware of other affected products, so that Canadians can easily identify ones they may have purchased and take appropriate action. Canadians are encouraged to consult the list regularly for updates.

Health Canada also maintains a list of hand sanitizers that contain technical-grade ethanol and are being recalled from the market because they are not compliant with federal regulations and may pose a risk to health.

What you should do:

Stop using the products listed below or on the list of hand sanitizers that contain technical-grade ethanol and may pose a risk to health. Please follow municipal or regional guidelines on how to dispose of chemicals and other hazardous waste. You may also return the product to your local pharmacy for proper disposal.

Consult your healthcare professional if you have used these products and have health concerns. To help limit the spread of COVID-19, wash your hands often with soap and water for at least 20 seconds. Use alcohol-based hand sanitizers if soap and water are not available. Use hand sanitizers that have been authorized for sale in Canada.

These products can be found on the list of hand sanitizers that meet Health Canada's requirements. Consult the list of hand sanitizers authorized or registered in other jurisdictions that may not display an NPN or DIN but have been accepted for use in Canada during the COVID-19 pandemic. Report any health product adverse events or complaints to Health Canada.
