BC HYDRO PROPOSES LOWERING WILLISTON RESERVOIR MINIMUM LEVEL

BC Hydro is putting forward a proposal to draw up to another 7 feet of water from the Williston Reservoir, a move that has raised concerns from several parties.

District of Mackenzie Mayor Pat Crook claims that Hydro's move could "virtually shut down the town."

The town of approximately 3,500 is located at the south end of the reservoir, which currently has a minimum operating level of 2,147 feet above sea level.

Hydro wants to reduce that level by seven feet, but says it will only draw down the reservoir to that level in the event of a drought or other "system events." A BC Hydro spokesperson denies that the Site-C dam would increase the risk of those system events occurring.

Mayor Crook says the forest products industries in the town have "expressed great concern" about the draw down proposal, arguing dropping the current minimum level would result in an insufficient amount of water to adequately supply the community's two saw mills, pulp mill, and bio-energy plant. Water-based log delivery systems to the town's mills could also become landlocked, as well as causing the pulp mill's effluent discharge breaching provincial regulations, and problems for the district's own effluent discharge system.

Lastly, problems would also be experienced by both the Tsay Keh Dene and Kwadacha First Nations, whose reserves are located on the shoreline of the Finlay or northern reach of the lake. Crook says the lowering of the water level would expose thousands of acres of sand below the present shoreline, which could cause health problems for the people there due to sand and dust being whipped up during wind storms.

Chubby Chicken BURGER
\$3
Price plus tax.
There are a lot of reasons to come try our Chubby Chicken Burger. Like how it's a lightly-breaded 100% seasoned chicken breast, topped with fresh lettuce on a toasted bun. Or that our chicken is raised without the use of antibiotics. Or how, for a limited time, it's only \$3. As far as reasons go, we'd say those are some pretty tasty ones.

WORKPLACE HEALTH AND SAFETY PROGRAMS FRONT AND CENTRE AT NORTHERN HEALTH BOARD MEETING

The Northern Health Board recognized the work underway by Workplace Health and Safety to reduce staff injuries and lost time in health care facilities across northern B.C. during their regular meeting in Prince George on October 21, 2015.

From 2010 to 2015, Northern Health has seen a decrease in the duration of lost time for WorkSafeBC claims. This has also resulted in a decrease in the amount of overall claim dollars. Since 2010, the programs that have been put in place have prevented people from becoming injured in the workplace and this has saved Northern Health over \$1.1 million.

"We want our staff and physicians to work in a safe environment, and for them to know that there is support available if they are injured at work," said Dr. Charles Jago, Northern Health Board Chair. "A focus on our people is a pillar of the Northern Health Strategic Plan and these results are a reflection of the work that is being done."

Programs that have been implemented include the Violence Prevention Program, the WorkSafeBC High Risk Strategy, Workplace Health and Safety Orientation for new hires and their managers, improving inspection guidelines for Workplace Health and Safety, and a work alone check-in program.

The Regional Dysphagia Management Team presented to the Board of Directors about the work they have been doing with clinicians and patients. Dysphagia is a term used to describe difficulty, discomfort and disorders associated with swallowing. The regional team has created better methods for screening people who live in long term care facilities to identify those who are experiencing dysphagia. The team provides education and support for care providers as they care for people with dysphagia.

"We want to ensure the people we serve are getting the best care possible," said Cathy Ulrich, Northern Health's President and Chief Executive Officer. "The interprofessional collaboration in the Regional Dysphagia Management Team helps us to improve the quality of life for the people experiencing this condition."

The Northern Health board also celebrated award nominations and accolades for:

- HEABC Golden Apple Awards
- Health Care Hero golden apple— Heather Floris – Head Nurse St John Hospital in Vanderhoof
- Award of Merit – Duty to Accommodate Pilot Project: A Collaboration with HR Operations and Disability Management for Northern Health and Interior Health
- Canadian HR Awards 2015
- Nominated as a finalist for The Winds of Change Award for Best Health and Wellness Strategy for corporate health and well-being.
