RIDE HAILING

As heard on Peace FM News, April 22, 2020, there have been ride hailing decisions made regarding new applications. One approved application and one refused application affecting: Chetwynd, Dawson Creek, Prince George, Fort St. John and other areas of Northern British Columbia. A link to the decision and details follows here

The Passenger Transportation Board Announces Five Additional Decisions on Ride Hailing Applications which is an independent licensing tribunal, is mandated to make decisions on applications relating to passenger directed vehicles in British Columbia, including ride hailing authorizations.

The Board has completed its review of five additional ride hailing company applications and has decided to approve the applications of: LTG Technologies Ltd to operate in Region 1: Lower Mainland, Whistler; Region 2: Capital Regional District; Region 3 – Vancouver Island, excluding CRD; Region 4 – Okanagan-Kootenays-Cariboo; and Region 5 – BC North Central & Other Regions of BC.

Metro Burnaby Rides Inc to operate in Region 1 and Hitch Ride Sharing Corp to operate in Region 1: Lower Mainland, Whistler

The Board has refused the applications of: 1st Choice Cabs Ltd to operate in Region 5 – BC North Central & Other Regions of BC. AHIDI, Rezagholi to operate in Region 1: Lower Mainland, Whistler. The decisions were made after a careful review of the extensive materials received during the application process which included supporting information provided by the applicants and submissions from interested members of the public and stakeholders.

Copies of the decisions can be viewed in the PT Board Bulletin of April 22, 2020
https://www.ptboard.bc.ca/Bullet.../2020/20200422_Bulletin.pdf

The Registrar has been directed to issue the licences to the approved applicants. Next steps for the approved applicants after receiving licences from the Registrar are to secure appropriate motor vehicle insurance and to work with municipalities in their operating areas to ensure compliance with local by-laws.

The Board has received a total of 35 ride hailing applications to date and with today's announcement has issued decisions on 28 of them. The Board is in the process of reviewing pending applications and is working towards issuing further decisions on ride hailing applications as expeditiously as possible.

The Board will notify the public as soon as additional decisions have been made.

LOAD RESTRICTIONS 2020

The District of Chetwynd wishes to notify the public that the following load restrictions will be in effect immediately.

100% Legal Axle Loading is permitted:

- North Access Road (business area)
- South Access Road (business area)
- Nicholson Road
- Industrial Park

All other Municipal streets and roads are restricted to 70% of Legal Axle Loading.

The District thanks you for your cooperation in their efforts to minimize the damage to our streets and roads during this spring thaw.

Price Gouging Fines in Effect

Effective immediately - \$2000 tickets can be issued by the RCMP and more for price gouging or the re-selling of medical supplies.

"For example a consumer paying ten times the regular prices for N95 masks," said Mike Farnworth, BC Minister of Public Safety.

"There are always people taking advantage of people's fears. British Columbians have enough to deal with right now," he added.

"These measures are designed to deal with whoever is involved in these shameful activities."

The province is calling upon local police and more to issue these tickets, municipal enforcement bylaw officers, liquor, cannabis and gaming inspectors, commercial inspectors, and more.

This is for the duration of the COVID-19 crisis."

"We will not let these practises continue," Farnworth said, adding people still were not getting the message about social distancing.

"There are always people that won't follow."

To clear a clogged drain, try this simple technique before using a chemical product: Pour 1/2 Cup of Salt down the drain, followed by boiling water...Continue to flush with very hot tap water until the clog breaks

3 non-toxic disinfectants

Kitchen countertops, bathroom vanities and other surfaces need to be kept clean. Here are three non-toxic disinfectants that'll kill germs without harming you or the environment.

ACCELERATED HYDROGEN PEROXIDE

You're probably familiar with hydrogen peroxide, a disinfectant that breaks down into water and oxygen. Accelerated hydrogen peroxide contains stabilizers and compounds that reduce surface tension, increasing both its germ-killing properties and shelf life.

PLANT-BASED DISINFECTANTS

Botanical disinfectants have been on the market for a while. One example is thymol, an oil extracted from

thyme that's used in a variety of household cleaners. It's been found to have very little environmental impact.

SILVER DIHYDROGEN CITRATE

The antibacterial properties of silver have been known for a long time. Silver ions combined with a citric acid solution is commonly used as a non-toxic antibacterial agent in cosmetics, but it could also serve as a household cleaner.

Keeping your home clean doesn't need to involve potentially toxic chemicals, even when it comes to the surfaces in your bathroom and kitchen.

If you have oversalted your soup or stew, put a cut up piece of apple or potato in it for a while as it simmers, then remove and discard. The apple or potato will have absorbed some of the salt, and you will have saved supper

CHETWYND FOREST INDUSTRIES
A DIVISION OF WEST FRASER MILLS LTD.

During this COVID-19 emergency there continues to be extra effort made by the people in our community. Whether you work in one of our grocery stores, pharmacies, gas bars or other essential service or you are a municipal employee, healthcare professional, or front-line emergency service provider, you all deserve an extra special thank you.

Our sincerest thanks for your tireless effort and commitment to the residents of Chetwynd.

The employees and Staff of Chetwynd Forest Industries
