Double CHEESE
Double BACON
BURGERS

AND DOUBLE NAPKINS, PROBABLY.

How do you top a burger that's made with 100% pure beef raised without the use of hormones or steroids? Generously, that's how. Like a double helping of cheese and naturally smoked bacon. Because when you've made Canada's best tasting burger, there's nowhere to go

UNITED NATIONS MISSION IN WOOD BUFFALO PARK TO MONITOR SITE C

A United Nations mission is now focusing on the Site C dam. The Wood Buffalo National Park, located where the Peace and Athabasca Rivers meet, has been a NESCO world heritage site since 1983 and is currently under review this week by the World Heritage Committee as per request from the Mikisew Cree First Nations.

An article from CTV News from the Canadian Press states that First Nations and conservationists are already concerned about the two dams currently in the park and feel as though a third can only do more damage. With Justin Trudeau and the Liberal Government already having issued permits for the Site C dam to go ahead as scheduled this upcoming summer, a 10 day 'reactive monitoring mission' was started on Sunday. This review and mission are following two other First Nations currently fighting in court to have the project stopped.

Grande Prairie RCMP are currently trying to locate CANDACE LACEY MINEAULT. The 28 year-old was last in contact with her family on September 15th and was reported as a missing persons on September 25th. She is described as a 5'6" First Nations person with long black hair and brown eyes. There is a general concern from her well-being and police would like to speak with her promptly. Anyone who has been in recent contact with her or knows of her possible whereabouts is asked to contact Grande Prairie RCMP at 780-830-5701 or anonymously to Crime Stoppers at 1-800-22-8477 (TIPS).

KELSEY'S CHRONICLE

Fall is here and I am sure I'm not the only one who thinks it is by far the most beautiful season of all. There are many things we northern folk have to think about in the fall, like cleaning up the yard of the summer toys before the snow hits, stocking up on firewood, winterizing any and everything that needs it, and of course getting out the winter tires. Even with all that work there is always time to stop and enjoy the season in the crisp

Autumn air with hot apple cider or a pumpkin spice latte.

We often notice the nights begin to draw in from this point after the Autumn Equinox (when the night and day are equal), until this is reversed at the Spring Equinox. During winter there is not enough light for photosynthesis to occur, so as the days shorten throughout Autumn, the trees begin to close down their food production systems and reduce the amount of chlorophyll in their leaves. Chlorophyll is the chemical which makes tree leaves green, and as it declines, other chemicals become more prominent in the leaves. These are responsible for the vibrant ambers, reds and yellows of Autumn. Some of these chemicals are the same ones that gives carrots (beta-carotenes) and egg yolks (luteins) their colours.

One of the great parts about Fall is getting to switch up your decor, inside and outside. Me, being an avid DIY'er, love to check out ideas online and get crafty, creating cool pieces for the fire place mantle, door, entryway and porch. The most popular crutches for completing fall DIY's are: burlap, mason jars, fallen leaves and sticks, wood in all shapes and sizes, pine cones and of course pumpkins. With these few things along with other crafting supplies like glue, twine and paint, you can create a ton of really neat things to display in and outside your home.

What about all the food that is dedicated to Fall, the beginning of comfort food season? With recipes like baked stuffed apples, sweet potato mash, cauliflower au gratin, pork loin and apples, turkey or beef squash stew and love it or hate it pumpkin pie; who wouldn't want to put on the stretchy pants and make every dinner count? After all, if we don't gain any weight over the next 3 months there won't be any reason to make that New Year's resolution to get in shape!

Autumn is also most photographers and photography lover's favourite season, because of the beautiful scenery everywhere and everyone's love of sending "Seasons Greetings" cards to family and friends. If you haven't updated your family picture in a while, don't miss your chance to torture your kids and book a session with one of our town's fabulous photographers.

But of all the things to love about fall, raking up the leaves just to let the kids jump in them is probably my favourite.

MEET THE MAYOR

September 30, 2016

The Union of British Columbia Municipalities which includes the Regional Districts and, I believe, some of the First Nations, has once again convened for its annual assembly. It's a busy five days of meetings with Government, engaging in study sessions, hearing and making reports, debating resolutions for change to legislation, and renewing old acquaintances lest they be forgotten.

Meetings with Government, designated as "speed dates" are very fast and not intended to produce detailed action plans. We get fifteen minutes to present our cases at the end of which the Time Keeper stands up and we know it is all over. The benefit derives from repetition. We meet with Ministers and Staff either by phone or in person weeks or even months earlier and give notice that we will follow up at UBCM. At UBCM we give notice that we will follow up again in weeks or months depending on the issue. Eventually action happens or it doesn't. Such is life when dealing with Government.

But we have to persist. There is no other way to get results.

The District of Chetwynd has several appointments with a number of Government Ministers and Staff this week. Included in our discussions will be potential industrial expansion, taxation strictures, health services, municipal finance and insurance, CN service and facilities, and education needs.

In addition to municipal meetings, as a Director on the Regional District Board, I will be joining with the PRRD delegation to meet a number of Ministers to stress the urgency of immediate and robust action to correct as many as possible of the circumstances that contributed to the floods of 2016. As I understand these circumstances, there are fixes that quite readily could be undertaken on some of the watersheds to reduce some of the potential threat.

These fixes need to be undertaken with dispatch.

Some will question the cost benefit ratio for attending UBCM. Hard figures cannot be ascertained. That is to say, it is impossible to measure the benefit the municipality derives from going face to face with government. We cannot determine a hard figure for the benefit of hearing the challenges and victories of our sister municipalities.

But I am pretty sure of this: it would be a dark, cold municipal world without these contacts to buoy us in our own challenges – to help us remember when the going is tough that others have gone this way before us and others are going with us as we go.

Really, that is what UBCM is all about. It cannot be imagined as a vacation paid by the municipality. I have yet to find the perk in the week of study, work, and debate. Facts of the matter are these: hotel room is cramped and uncomfortable, food is marginal at best, days are long, and work is piling up at home.

Don't take me wrong. I want to be here; I want to meet the ministers; I want to advocate for Chetwynd and it is a pleasure to do so. All the inconveniences I can handle for that. May Chetwynd thrive!

Merlin Nichols, Mayor

I'd never had surgery, and I
was nervous.

"This is a very simple,
noninvasive procedure," the
anesthesiologist reassured me.

I felt better, until...

"Heck," he continued, "you
have a better chance of dying
from the anesthesia than the
surgery itself."
