## RECEIVED A COVID-19 TEST RESULT? WHAT TO EXPECT

The recent surge in lab-confirmed COVID 19 cases in the Northern Health region is putting pressure on public health case and contact management (contact tracing) resources.

The number of new people testing positive for the virus is impacting public health's ability to quickly contact people who have tested positive. There is currently a backlog of people who have tested positive for COVID-19, but have not yet been contacted by public health.

Northern Health is deploying additional staff to its case and contact management teams, and making other necessary changes to how cases are notified, monitored, and cleared from self-isolation, to clear the backlog and speed up the process in the weeks and months ahead.

Everyone who tests positive for COVID-19 will receive a call as soon as possible from Public Health - this will not change. Northern BC residents who receive a message with a COVID-19 positive test result, should self-isolate immediately, along with those in their household; Public Health will be in contact with you. Rapid options for receiving COVID-19 test results (text or SMS) mean results may come well before a call from public health - which could take up to 4-5 days. We are working to reduce this time frame with additional staffing, and shifting the focus of detailed contact tracing. Currently, contact tracing includes public health identifying and directly notifying all close contacts of every confirmed case. NH is shifting to gathering information on, and notifying, close contacts only in certain situations (including health care workers, including those in long-term care; cases related to industrial projects, and in First Nations communities, and; those that are part of a known cluster or outbreak). This will ensure public health can respond quickly to developing clusters of cases or potential outbreaks for those that are most vulnerable.

Public health will be also be reducing the frequency of calls to people in self isolation after testing positive for COVID-19, and not all people who are self-isolating will receive daily monitoring calls. Individuals may instead receive regular calls from their primary care provider (family doctor or nurse practitioner), or get support by contacting the NH Online (Virtual) Clinic 1-844-645-7811. Public Health will continue to call all COVID-19 positive individuals at the end of their isolation period, to release them from the requirement to self-isolate. As always, Northern BC encourages everyone to adhere to current Provincial guidelines and restrictions. If you are experiencing potential COVID-19 symptoms, we continue to ask that you self-isolate, and contact your primary care provider or the NH COVID-19 Online Clinic and Information Line at 1-844-645-7811. Media Contact: NH media line - 877-961-7724.

### More Cleaning Recipes

Toxicity is all around us; people often develop sensitivities to soap, shampoo, household cleaners, lotions, etc. Here are a couple of simple recipes that can be created or modified at home to reduce the amount of chemicals and carcinogens in your own home.

**Laundry Soap Recipe:** In a quart jar with the lid secured, mix together 2 2/3 cup water, 2/3 cup baking soda and 30 drops of your choice of essential oils (Purification, Thieve's, lavender, peppermint and/or lemon). Remove the lid of the jar and add 2/3 cup of Sal Suds (or most any of Dr. Bronner's liquid castille soap), replace the lid on the quart jar and slowly swirl to mix. To use in laundering—Add 1/4 cup detergent per HE load, 1/2 cup for a regular washing machine load.

**Laundry Rinse:** 1/2 cup of vinegar in the final rinse cycle acts as a sanitizer, deodorizer and static guard. It will even remove those residual odours of "old clothing" smell, such as what one might encounter in thrift store items. Hanging clothing outside in the sunshine to dry leaves them sanitized and fresh-smelling, too.

**Dandruff and volume shampoo:** Blend on high speed—one large onion and two aloe leaves with 1 cup of water on high speed until smooth. Pour into 1 cup of healthy shampoo and let set for two to three weeks. You will be pleasantly surprised at the effectiveness of this safe dandruff control formula that adds volume and a natural shine to your hair.

# Loved Ones Honoured On Christmas Memory Tree

The Chetwynd Shared Ministry invite members of the community to hang an ornament on its Memory Tree in honour of their loved ones. Take an ornament, write the persons name on it and even a little note and then hang it on the tree. Ornaments and pencils supplied at the tree.

## 5200 Hillside Avenue

The holiday season is traditionally a time of joy for most. But, for those grieving, it can inspire feelings of loss, loneliness and social isolation, especially during this pandemic. Many grieving people feel out of step with the world around them, yet are reluctant to admit their pain. The Memory Tree provides a way to acknowledge and remember people who have died.

If you are unable to visit our tree, please email [chetshared.ministry@gmail.com](mailto:chetshared.ministry@gmail.com), phone 250-788-1011, or text 250-788-6068, with the name of your loved one and we will ensure an ornament, in their honour, is placed on our tree.

*Note: we acknowledge that our fur babies also hold a special place in our hearts so please honor and remember your pet by placing an ornament on the wreath beside the tree.*

If you would like your ornament back, please remove it between December 26<sup>th</sup> and January 6<sup>th</sup>. All ornaments left on the tree and wreath will be cared for in a special and meaningful way.

We live less than a quarter-mile from the high school, but my son proudly drove there in a car he bought with his own money. A typical first car, it had lots of little problems and was sometimes slow to start.

One morning I was surprised to see it still in front of the house, so after school I asked him about it. "I had to get to school early," he said, "so I just ran."
