## Chetwynd's RCMP Annual Jail & Bail

This past Tuesday, July 16th, the Chetwynd RCMP held their annual Jail & Bail for Cops for Cancer. The took several unsuspecting "criminals" and locked them in a make-shift jail in front of Lakeview Credit Union where they were set with the mission to pledge their way out of jail.

Each jailbird had an amount set for bail that they had to raise before being set free. Even Mayor Allen Courtoreille got taken to jail and managed to raise over \$3000 in his lengthy stay in the pen.

This year, the initiative managed to raise \$16,148.45, an astounding number for our small community!

A huge thanks to all the volunteers that helped put it on and to all the people who donated to the cause!

## How to grow fresh herbs indoors

Fresh herbs can make a mediocre meal mouth-watering. To ensure you have them on hand at all times, why not grow them right in your kitchen? Here's what you should know about growing herbs indoors.

### GETTING STARTED

Growing an indoor herb garden will require nutrient-rich soil, pots with good drainage and a sunny window. Generally, herbs need a minimum of six hours of sunlight a day to thrive. If you don't have a space that can provide this amount of natural light every day, consider getting an LED grow light instead.

### CHOOSING YOUR HERBS

You can grow your herbs from seed or purchase seedlings from a garden centre or nursery. If you buy young plants, choose ones

with shiny leaves and strong stems. Some herbs that do well on a windowsill include:

- Basil
- Rosemary
- Parsley
- Chives
- Oregano
- Thyme
- Mint

### TAKING CARE OF YOUR HERBS

Herbs should be watered regularly but not overwatered. You'll know it's time to water them when the top layer of soil is just starting to dry out, but the deeper layers are still damp. Plants in smaller pots need to be watered more often.

Additionally, regularly feed your herbs nitrogen-rich fertilizer to encourage strong leaf growth. To remove salt residue caused by fertilizing, flush the plants once a month by holding their pots over the sink and running water over them until it flows from the bottom of the pot.

To keep your herbs in great shape, harvest the leaves regularly. To do this, simply pinch off the topmost ones as you need them. Just be sure not to pick the big lowermost leaves that provide plants with a sturdy base. Regular harvesting will ensure your plants thrive.

## 7 tips for keeping your home cool without an air conditioner

During the hottest days of summer, it can be difficult to keep your home at a comfortable temperature. Here are seven tips to stay cool without an air conditioner.

1. **Keep sunlight out.** Close your blinds and curtains during the day to prevent the sun's rays from heating up your home.

2. **Circulate the air.** Set up a network of fans to keep the air in your home moving. You can also make a DIY air conditioner by placing a bowl of ice or an ice pack in front of your fans to create an icy breeze.

3. **Open your windows at night.** Open your windows when the sun goes down to let the cooler evening air in.

4. **Use a dehumidifier.** Humidity can make your house uncomfortably warm. Run a dehumidifier to evaporate the water in the air.

5. **Cook outdoors.** Using the stove or oven will make your home even hotter. Instead, cook your meals on the barbecue.

6. **Use appliances wisely.** Wait until the sun goes down to run your dishwasher, and hang dry your clothes in the sun. Being careful about how you use appliances will prevent you from adding more heat into your home.

7. **Use your exhaust fans.** Turn on your bathroom and kitchen fans to draw hot and steamy air out of the house.

In addition to keeping your home cool, you may also want to wear loose-fitting, light-coloured clothes, drink lots of cold beverages and avoid physical activity during the hottest parts of the day.

### ARIES (Mar. 21-April 20)
